Soon the doctor calls Ann.
“Hello Ann, how are you feeling?” asks the doctor.

“Let’s see how heavy you are,” says the doctor. “Good, you weigh 25 kilograms” says the doctor.
“Let’s see how tall you are,” says the doctor.
“You are 125 centimetres tall,” says the doctor.
The doctor feels Ann’s stomach.

It didn’t hurt.
Then the doctor puts a plaster on Bobo’s leg. “Now you will feel better,” the doctor tells Bobo.
The doctor gives Ann some medicine. Ann must take one teaspoon of medicine three times a day.
She also gives Ann a lollipop. “You were a brave girl, Ann,” says the doctor.
“Thank you doctor,” Ann says. “Please doctor, can Bobo also have a lollipop?”
"Oh yes!" says the doctor. "Bobo can have two lollipops."

The CAPS requires teachers to allocate some time each day for focused group-guided reading. In group-guided reading, teachers guide learners of a similar reading level, to read the same book, in a group. The reading session should include a range of word attack skills and comprehension strategies that children require when reading. Reading effectively also requires “text talk” between the teacher and learners, and amongst the children in the group. These books include a number of “text talk”, comprehension and other related activities to help teachers direct group reading in their classes.
